Colorado State University, Department of Soil and Crop Sciences
Plant Sciences Building, Fort Collins, CO 80523
Phone: 970-491-6202 Fax: 970-491-1173

Date: October 6th, 2011

To: Certified Wheat Seed Growers

From: Linda Munk, Interim Manager – Colorado Seed Growers Association

Enclosed is a copy of the Seed Distribution Summary for your 2011 certified wheat seed production. This summary is the final step that must be taken for the certified seed production season and is necessary for all wheat varieties. Please return the yellow copy of all office printed Bulk Sales Certificates as well as a copy of all Transfer Forms used this year. Because many growers want to finalize the CWRP royalty payments for the 2011 year, we are asking that the distribution summary be returned to the CSGA Office by **December 1st, 2011**.

Also enclosed with this mailing is a blank copy of a distribution summary for you to report any carryover seed sales of seedlots grown in past seasons. Just enter the certification number of the seedlot and the amount of seed carried over from last year and then report all the sales or other choices for that lot.

Please remember that returning this report in a **timely fashion** is a requirement for maintaining your status with CSGA. Your cooperation is required to maintain seed certification privileges.

Thanks for your cooperation. Please call the CSGA Office at 970-491-6202 if you have any questions.

2011 Distⁿ. Summary

This field was combined with others and all information is combined and reported under field number

1. Carryover From Previous Year
