Internship Objectives

Student Name:

CSUID:

Cooperator Name:

Cooperator Phone #:

Dates of Internship:

Estimated Hours Per Week:

The Internship objectives will be used to help evaluate the intern's performance by the Cooperator, On-Campus Supervisor and Internship Coordinator. Together, the Cooperator and student intern should create a minimum of five learning objectives in order to develop clear, shared expectations and **measurable** goals for the Intern's experience. Throughout the Internship, the Intern will focus on collecting evidence of their work that fulfills each objective. The evidence of this work will be shared to the On-Campus Supervisor through weekly reports and the Intern's final paper.

Examples of measurable objectives:

- The intern will develop marketing strategies for the sale of livestock
- The intern will document the care and training of livestock
- The intern will assist in the development of a fundraiser event for the county 4-H program

Examples of hard-to-measure objectives:

- The intern will learn business procedures
- The intern will attend company meetings
- The intern will receive an understanding of training concepts
