Graduate Student Annual Evaluation form.

This award is \$1000.

---

Bioagricultural Sciences and Pest Management is a unique department among US Land Grant Universities, encompassing the disciplines of Entomology, Plant Pathology, and Weed Science. As important as our disciplinary history is our interdisciplinary, problem solving orientation in the crosscutting areas of: 1) Genomics and Molecular Biology, 2) Ecology and Biodiversity, 3) Biology and Management of Invasive Species, and 4) Integrated Pest Management.
