Iris yellow spot virus <http://utahpests.usu.edu/IPM/htm/vegetables/vegetable-insect-disease/iysv-onions>

Onion Health Management & Production. H. F. Schwartz and M. E. Bartolo. 2013. 104 Pages Available from CSU Resource Center <http://www.csuextstore.com/store/pc/viewPrd.asp?idproduct=399>

Soil-borne diseases of onion <http://www.ext.colostate.edu/pubs/crops/02940.html>

Xanthomonas leaf blight of onion <http://www.ext.colostate.edu/pubs/garden/02951.html>

POTATOES

Bacillus thuringiensis <http://www.ext.colostate.edu/pubs/insect/05556.html>

Compendium of potato disease, paid publication
<https://www.apsnet.org/apsstore/shopapspress/Pages/42759.aspx>

Flea beetles <http://www.ext.colostate.edu/pubs/insect/05592.html>

Potato or tomato psyllids <http://www.ext.colostate.edu/pubs/insect/05540.html>

Potato pest management guidelines, University of California
<http://www.ipm.ucdavis.edu/PMG/selectnewpest.potatoes.html>

San Luis Valley Research Center -- Beginning in 1940, the principal research activity was focused on selecting potato varieties adaptable to the region. In 1979 a potato breeding program was initiated to complement the selection activity. Research on cultural practices including disease and pest studies was also conducted. In the early 1920s, the Colorado Certified Seed Growers Association initiated a seed certification program located on the Colorado State University campus which was co-located at the SLVRC in 1964.
