

Soil and Crop Sciences
Seminar Schedule
Spring 2017
12:00 p.m. to 12:50 p.m. - W9 Plant Science Building

Date	Speaker	Topic
January 19	Bruce Bugbee Utah State University	Turning Photons Into Food: 30 Years of Research with NASA
January 26	Mike May College of Agricultural Sciences Colorado State University	Instructional Technology in the College of Agricultural Sciences
February 2	Elizabeth Bach Executive Director of the Global Soil Biodiversity Initiative	Restoring Microbial Communities in Tallgrass Prairie
February 9	Josh Wenz MS Candidate Department of Soil and Crop Sciences	
February 16	Gayle Volk USDA-ARS Fort Collins	Development of Conservation Strategies for Fruit Crops
February 23	Gene Kelly Agricultural Experiment Station Colorado State University	Colorado Agricultural Experiment Station Updates
March 2	Karen Vaughan University of Wyoming	Alpine Soils, C, and Permafrost
March 9	Mark Uchanski Department of Horticulture and Landscape Architecture Colorado State University	Specialty Crops Research: Up and Down I-25
March 16	NO SEMINAR SPRING BREAK	
March 23	George Taylor USAID (retired) CSU SoGES	Agriculture & International Development Over the last 35 Years: Reflections Looking Back, Ruminations Looking Forward
March 30	Jeff Endelman Cargill Speaker University of Wisconsin	Combining Marker and Pedigree Information for Genome-Wide Prediction in Potato
April 6	Pankaj Trivedi Department of Bioagricultural Sciences and Pest Management Colorado State University	Microbial Modulators of Soil Carbon Turnover: From Genome to Ecosystems
April 13	Jordan Suter Department of Agricultural and Resource Economics Colorado State University	
April 20	Francesca Cotrufo Department of Soil and Crop Sciences Colorado State University	Rising From the Ashes: Pyrogenic Carbon Dynamics After Fire
April 27	Jude Maul USDA-ARS Beltsville, MD	

May 4	Panel of Former SOCR Grad Students	Life after Graduate School
