

Feb 7th 2017

Add brooke and jake from IT to the list

Brooke.alexander@aol.com

Nora – grad soil crop

Kristina – equine undergrad

Dusty- undergrad resource econ

Stacy – bspm grad

Anders – grad ag resourc

ed – grad hort and landscape

Jake – it

Ed – it

Brooke – undergrad hort and landscape

1. Spending should be done by April 15th

This and two more meetings to decide how we spend the money. \$65-70,000 on computers but about \$70 left

2. **Stacy and Jake** (from IT) will make a proposal for offices and also upgrading one of the classrooms.

3. Graphing software – working on getting it purchased and installed (graphpad and simca). VDI (virtual desktop). 20 of graphpad and 5 of simca

4. Jake – told us about VDI – You can work on documents on school computers and home computers.

5. **Kristina** –

Adobe – prof from equine science wants to teach with it. ~\$160 per computer. Install in animal science. A lot of money. Maybe need to see if they can teach it in the other teaching lab.

6. **DARE** needs a new color printer – they need to decide what model they need to do. Anders will figure out what they need. Xerox \$1800 a year. **Anders**

7. Monitors for the soil and crop grad office – how many do we need – I really need to corner MARK BRICK about this. Stacy will figure out how many they need. **Nora**

Next meeting...

Proposal for flat screen for bspm classroom – stacy

Proposal for monitors – plant sci

Dusty – proposal for ARDEC class - some stuff for display

Anders – printer for the dare office

Kristina – about adobe
