

# GROW THE FUTURE GENERATION OF AGRICULTURAL LEADERS

Support College of Agricultural Sciences students as they set out to tackle some of the toughest global challenges, including food security and resource stewardship.

Scholarships challenge students to step beyond educational norms, to understand that there are no limits to imagination, and to lead us all to the world's next agricultural breakthroughs.

Scholarships allow Colorado State University to attract outstanding students, help make a college degree more affordable, and allow students to concentrate more fully on their studies and educational experience.

“**Being a scholarship recipient is truly humbling. As a first-generation student, I am so encouraged knowing that somebody believes in my capacity to succeed here at CSU and as I pursue a career in the agriculture industry.**”

– Kristen Schmidt, agricultural business
