Key Updates for 2026 LRP coverage

Starting in July 2026, the USDA is rolling out key updates to Livestock Risk Protection (LRP) that give cattle and hog producers stronger, more flexible ways to manage risk in today's high-price environment.

- Unborn calf protection under LRP increases max coverage weight to 900 pounds—helping cow-calf producers protect value through heavier sale weights without coverage gaps.
- LRP and Livestock Gross Margin (LGM) can now be used in the same marketing window, giving feedlots and hog producers more flexibility to layer and time their risk management strategies.
- Fed cattle producers will soon see a new pricing model that will be used to generate coverage offers that more closely match existing market conditions.

Livestock Risk Protection Overview

Understanding livestock risk protection insurance

Livestock Risk Protection (LRP) is a federally subsidized risk-management program designed to insure against a decline in livestock market prices. Producers may choose from a variety of coverage levels and insurance periods that help protect against national marketplace volatility. Insurable livestock include Fed Cattle, Feeder Cattle and Swine. LRP uses area pricing to determine indemnities and is offered on a per head basis.

How Livestock Risk Protection Works

Coverage details

Livestock Risk Protection (LRP) is an insurance program offered to producers of fed cattle, feeder cattle, marketable dairy cattle and hogs.

Price level

A user of LRP first selects an end date for the insurance policy that is close to the expected marketing date for the livestock and then selects a coverage price level to insure.

Coverage price

If, on the end date of the policy, the regional/national cash price average (not the producer's cash price) is below the insured coverage price, the LRP insurance pays an indemnity to make up the difference.

Livestock Insurance Analyzer

Our tools and technology help inform your decisions

The Livestock Insurance Analyzer is FCSAmerica's proprietary tool that provides daily premium rates and coverage prices to help you make informed LRP purchases. It also provides historical performance, endorsement tracking, custom price reports, and more to help you see the full picture before making decisions.

Our Livestock Insurance Analyzer is mobile.

View daily quotes, request coverage, get notifications and access PDF reporting. Watch the video to learn more.

Livestock insurance analyzer example

The table represents an example from our Livestock Insurance Analyzer that shows LRP coverage options for Feeder Cattle for a 26-week period.

The Coverage Price is the producers' market coverage, Producer Premium is their cost for that coverage, and Net Guarantee is showing their bottom line after applying coverage.

RMA coverage prices are updated daily by 4:30 p.m. on the Livestock Insurance Analyzer. Easily accessing these daily LRP quotes is just one benefit of the tool. The Livestock Insurance Analyzer helps you calculate the numbers that really matter to your business.

Expected Price (\$/cwt)	Coverage Percentage	Coverage Price (\$/cwt)	Producer Premium (\$/cwt)	Net Guarantee (\$/cwt)
\$397.44	100.00%	\$397.44	\$11.47	\$385.97
\$397.44	99.00%	\$393.47	\$10.16	\$383.31
\$397.44	98.00%	\$389.49	\$8.87	\$380.62
\$397.44	97.00%	\$385.52	\$7.81	\$377.71
\$397.44	96.00%	\$381.55	\$6.83	\$374.72
\$397.44	95.00%	\$377.57	\$5.97	\$371.60
\$397.44	92.50%	\$367.63	\$3.82	\$363.81
\$397.44	90.00%	\$357.70	\$2.64	\$355.06
\$397.44	87.50%	\$347.76	\$1.62	\$346.14

Feedback

\$397.44	85.00%	\$337.83	\$1.11	\$336.72
\$397.44	80.00%	\$317.95	\$0.44	\$317.51
\$397.44	75.00%	\$298.08	\$0.19	\$297.89

How do I access the Livestock Insurance Analyzer tool?

We offer livestock insurance customers access to the Livestock Insurance Analyzer tool to help navigate the variables specific to their livestock operation. Customers with applications and a signed user agreement will be provided a login to access the Livestock Insurance Analyzer app, which can be downloaded from your preferred app store.

New account

To request a Farm Credit Livestock Insurance Analyzer account, complete the contact form and include a message about requesting an account.

Why Work With Us for Livestock Insurance

Dedicated specialists

Our agents are non-commissioned and focus 100% of their time on [crop insurance](#) and [livestock insurance](#)—every working day of every week in the year. They don't sell property, casualty or life insurance.

Highly trained

Our insurance officers receive annual training on RMA changes to crop insurance and livestock insurance plans and stay informed throughout the year.

Financial expertise

As a lender, we understand financial risk and work to protect your working capital, not just your crop or livestock.

Exclusive tools

Leverage our [exclusive policy review](#) and Hail Analyzer tools to receive a personalized insurance plan—maximizing your net indemnity, cash flow, forward market opportunities, and minimizing your premium costs.

Your Success Matters.

You need a lender who understands agriculture and your unique needs. We have entire teams dedicated to your success, from local advisors to economists to commodity specialists and more. Every day, we work to be your most valued financial partner.
