

# CURRICULUM VITAE

Eugene F. Kelly

Department of Soil and Crop Sciences  
Colorado State University  
Fort Collins, Colorado 80523

## EDUCATION

Ph.D. Soil Science, University of California-Berkeley, 1989

M.S. Soil Science, Colorado State University, 1984

B.S. Forest and Range Mgt, Colorado State University, 1980

**Areas of Specialization:** Pedology, Ecosystem Ecology, Soil Science, Sustainable Agriculture, Soil Degradation, Isotope Geochemistry, Biogeochemistry, Global Change Science, Environmental Forensics

## PROFESSIONAL EXPERIENCE

### Academic Positions

2016- Present	Professor of Pedology, Deputy Director Colorado Agricultural Experiment Station & Associate Dean of Extension, College of Agricultural Sciences, CSU, Fort Collins, CO
2011 – 2016	Professor of Pedology and Head, Department of Soil and Crop Sciences, CSU, Fort Collins, CO
2001 - 2011	Professor of Pedology, Department of Soil and Crop Sciences, CSU, Fort Collins, CO
1995 - 2001	Associate Professor of Pedology, Department of Soil and Crop Science, CSU, Fort Collins, CO
1989 -1994	Assistant Professor of Pedology, Department of Agronomy, CSU, Fort Collins, CO

### Scientific Leadership Positions

2015 - 2017	Visiting Head Scientist, Interim CEO, National Ecological Observatory Network (NEON Inc.), Boulder, CO
2008 - Present	Associate Director for Research and Development, School of Global Environmental Sustainability, Colorado State Univ.
2010- 2015	Panel Manager, USDA- AFRI – Climate Change Mitigation Bioenergy/ Carbon/Climate Program , Washington, D.C.
2006-2008	Panel Manager, USDA, Soils Program, Washington, D.C.
2000- 2008	Administrative Leader and Principal Investigator, Short Grass Steppe-Long Term Ecological Research Program, College of Agricultural Sciences, Colorado State University

### National Advisory Activities and Service

2016-present	Board of Directors, Society for Science at User Research Facilities (SSURF)
2016-present	Board of Directors, Industrial Hemp Research Foundation
2015-present	USDA State Emergency Board Farm Service Agency
2014-2015	Chair, Strategic Planning 5yr Review NCSS, USDA-NRCS
2008-2009	Tri Societies Representative - Hill Visit Bio-fuels Research
2005-2006	Tri Societies NSF Hill Day Representative
1992-2001	Technical Advisor NCSS Program, Washington, D.C.
1994-1996	Technical Advisor to Biosphere 2, Columbia University
1992-2010	Scientific Advisory Committee For USDA/ARS, Ft Collins, CO

## **Membership in Professional Organizations:**

Soil Science Society of America, Division S5-Chair (2008-2010)  
Gamma Sigma Delta, Colorado State University  
Sigma Xi, Colorado State University, 1991  
Ecological Society of America  
American Geophysical Union

## **Honors and Awards**

2016 Soil Science Research Award, Soil Science Society of America  
2009 Fellow of Soil Science Society of America  
2009 Honorary Degree – Colorado FFA  
2000 Faculty Award of Merit, Gamma Sigma Delta, Colorado State University  
1993 Charles G. Shepardson Faculty Teaching Award  
1991 Sigma Xi, Colorado State University.  
1985 Outstanding Graduate Instructor, University of California, Berkeley.  
1982 Gamma Sigma Delta, Colorado State University.  
1983 Colorado Fellowship, Excellence in Teaching & Graduate Research

## **TEACHING, ADVISING AND MENTORING**

### **Course Instruction**

Pedology, Global Environmental Sustainability; Fundamentals of Ecology; Forest & Range Soils; Supervised College Teaching; Seminar in Soil and Crop Sciences; Isotope Geochemistry; Advanced Topics in Ecology; Interdisciplinary Study of Ecological and Pedological Concepts

### **Graduate Students (Chaired/co-Chaired)**

<b><u>Year</u></b>	<b><u>Student</u></b>	<b><u>Degree</u></b>	<b><u>Thesis Topic</u></b>
Current	Ryan Taylor	Ph.D.	Pedology/Sustainable Ag
2017	Greta Birch	Ph.D.	Pedology
2017	Keri Minatre	M.S.	Forest Ecology
2016	Judith Daniels	Ph.D.	Pedology/Soil Survey
2015	Robert Bergstrom	Ph.D.	Pedology/Hydrology
2014	Shawn Salley	Ph.D.	Pedology/Ecology (w/Martin)
2010	John Norman	M.S.	Pedology/Soil Survey
2009	Suellen Melzer	Ph.D.	Geochemistry/Pedology
2005	Steven Blecker	Ph.D.	Geochemistry/Pedology
2003	John Brenner	M.S.	Soil C (w/Paustain)
2002	Suzanne Loadholt	M.S.	Pedology
2002	Abdula Farar	Ph.D.	Mineralogy (w/ Heil)
2002	Nancy Okeefe	M.S.	Water Quality
2000	Elizabeth Sulzman	Ph.D.	Biogeochemistry/Pedology
1999	Johan Six	Ph.D.	Soil Carbon (w/Elliott)
1998	Yutaka Hagimoto	M.S.	Biogeochemistry
1997	Bryan Stevenson	Ph.D.	Soils and Paleoclimate
1997	Stephanie Connolly	M.S.	Soil Chemistry (w/Cardon)
1995	Dennis Cleary	M.S.	Wetlands of Colorado
1994	Charles Peacock	M.S.	Soils and Geomorphology
1994	Daniel Palic	M.S.	Geospatial Modeling\
1994	Steven Blecker	M.S.	Soils and Paleoclimate

## Graduate Students (Committee Member)

<u>Degree</u>	<u>Committees</u>
Ph.D.	58
M.S.	56

## Postdoctoral Fellows/Visiting Scholars/Research Associates

<u>Name</u>	<u>Research Specialization</u>	<u>Years</u>
Dr. Floor Vanderveen	Biogenic Si and Land Use	2012-2014
Dr. Susan Melzer-Drinnen	Pedology/Ecology	2010-2013
Robert Flynn	GIS/Programmer	1998-2012
Troy Kashon	Web Design and IM –NPS	2009-2012
Danelle Malget	GIS/Remote Sensing	2009-2012
Michael O’Konski	GIS and Web Design	2009-2012
Dr. Judy Daniels	GIS- Soils Data	2009-2012
Dr. Sallie Sprague	Project Manager SGS-LTER	2002-2008
Caroline Yonker	Pedology/Ecology	1991-2008
Mark Lindquist	Range Science	1999-2008
John Norman	GIS/Geography	1999-2004
Dr. Jan Cipra	GIS/Remote Sensing	1994-2004
Dr. Karen Ziegler	Stable Si Isotopes of Plants	1999-2001
Dr. Xiu Ou	GIS Applications to Soil Management	1999-2001
Dan Reuss	Mass Spectrometry	1996-2000
Dr. Jean Hsieh	Stable O Isotopes	1994-1997
Dr. Larry Munn	Stable C and O Isotopes	1996
Dr. Eric MacDonald	Soils and Paleoclimate	1994-1996
Dr. Anne Alexander	Silica Biogeochemistry	1995
Dr. Felipe Garcia-Oliva	Soil Carbon Dynamics	1992-1994

**SCHOLARLY ACTIVITIES** *Citation indices; total citations 3803; h-index 34; i10-index 41; Source: Google Scholar; Date 07/8/2017*

**International, National, Local**

1. Observing Climate Impacts on Ecosystems: Challenges and Opportunities, Joint Session on Climate Change and Ecology, National Academy of Sciences – Engineering and Medicine, Irvine CA, November 29, 2016.
2. Using the Ecological Sciences to Better Understand our World, School of the Environment and Natural Resources, The Ohio State University, Nov10, 2016
3. Enhancing continental-scale understanding of agriculture: Integrating the National Ecological Observatory Network (NEON) with existing research networks to address global change, AGU National Meeting. December 18, 2015
4. Sustaining the Pedosphere: Establishing a Framework for Management, Utilization and Restoration of Soils in Cultured Systems. Michigan Chapter Soil & Water Conservation Society, March 7, 2014, East Lansing MI,
5. Pedology and Ecosystem Services: research Opportunities and issues for the NCSS. West Regional Soil Survey Work Conference, Portland Ore, July 17, 2014.

6. Landscape Resilience: The Vulnerability of Soils to Changing Climatic and Land Use Conditions. Conference Keynote and 2013 Pritchard Lecturer for The 68<sup>th</sup> International Conference of the Soil and Water Conservation Society, Reno, Nv, July 22, 2013.
7. Visions for Soil and Critical Zone Monitoring With a Systems Approach, Technical Keynote for "Soil Survey — Planning for Soil Health in the Critical Zone". National Conference for the National Cooperative Soil Survey June 17, 2013.
8. The Necessity of and Opportunities for Collaborative US-Russia Pedology Research in Network-Level Science, Russian State Agrarian University, Moscow Russia, June 18, 2012
9. Global Change and Soil Degradation, Russian State Agrarian University, Moscow Russia, June 19, 2012
10. Crossing evolutionary and contemporary scales: the critical importance of grassland expansion to global silica cycling, Ecological Society of America, Pittsburg, PA, August 5, 2010
11. Mobilization of silica in terrestrial grassland ecosystems and the potential Impact on the global silica cycle, Ecological Society of America, Milwaukee, WI, August 4, 2008
12. Afforestation effects on soil development, NATO-OTAN- Influences of tree species on soil properties, Krasnoyarsk, Russia, August 27, 2004.
13. Biogeochemistry of Silica in Soil-Vegetation Systems: Theory, Methods and Applications for Quantifying the Role of Plants in Terrestrial Weathering. Second International Meeting on Phytolith Research, Aix en Provence, France, August 29, 1998.
14. Edaphic controls on soil carbon dynamics along a bioclimatic gradient, north Central Colorado. American Association for the Advancement of Science, Pacific Division, Honolulu, Hawaii, June 30, 1998
15. Long term Processes of Soil Development, NATO-ASI - Soils and Global Change: Carbon Cycle, Trace Gas Exchange, and Hydrology, Toulouse, France June 27, 1997
16. The Use of Isotopic Techniques in Biogeochemical Research, NATO-ASI - Soils and Global Change: Carbon Cycle, Trace gas Exchange, and Hydrology, Toulouse, France, June 19, 1997
17. Using Isotope Techniques to Study Soil Hydrology, NATO-ASI - Soils and Global Change: Carbon Cycle, Trace gas Exchange, and Hydrology, Toulouse, France June 16, 1997
18. Crossing Evolutionary and Contemporary Scales: The Critical Importance of Grassland Expansion and Contraction to Global Silica Cycling, Department of Soil Science, North Carolina State University, April 4, 2012.
19. The Potential Impacts of Global Change Drivers On the Terrestrial Silica Cycle Department of Soil Science, North Carolina State University, April 5, 2012.
20. The Impact of Native Grassland Conversion to Cultured Systems On the Terrestrial Silica Cycle. Division S9, SSSA Meetings, Long Beach, CA, November 1, 2010.
21. Crossing evolutionary and contemporary scales: the critical importance of grassland expansion to global silica cycling. Ecological Society of America, Pittsburg, PA, August 5, 2010.

22. The necessity of and opportunities for Pedology in network-level science SSSA Nov 1, 2010. Division S5, SSSA Meetings, Long Beach, CA, November 1, 2010.
23. Mobilization of Silica in Terrestrial Grassland Ecosystems and the Potential Impact on the global Silica Cycle. Geological Society of America, Houston, Texas, October 7, 2008.
24. A study of the origin, evolution, and maintenance of the short-grass teppe (SGS) ecosystem, The Land Institute, Salinas, KS. June 8, 2004.
25. Long term monitoring of the Short Grass Steppe Ecosystem: Quantifying the Spatial and Temporal Controls on Ecosystem Structure and Function", Monitoring Science and Technology, September 22, 2004.
26. The Biogeochemistry of Silica in Grasslands Ecosystems of the central Great Plains of North America. Dept of Soil and Environmental Sciences University of California, Riverside CA. February 5, 2003.
27. The Biogeochemistry of Silica in Grasslands Ecosystems of the central Great Plains of North America. Department of Land Air and Water Resources, University of California, Davis CA. March 5, 2003
28. The Biogeochemistry of Silica in Grasslands Ecosystems of the central Great Plains of North America, Division S5 and S7 - SSSA Meeting Indianapolis, Indiana. November, 2002.
29. The use of terrestrial paleoenvironmental data to drive regional and global biogeochemical models. Reno Nevada, November 15, 2000
30. Soil biota, soil formation and recovery processes in rangeland ecosystems. Division S3- SSSA Meeting Indianapolis, Indiana. November 3, 2000.
31. Chemical and mineralogical Properties of Soils Along a Bioclimatic gradient in Hawaii, Department of Chemistry, Colorado School of Mines, February 3, 1998
32. Pre-contact vegetation on the Kohala Penninsula, Hawaii, USA. at Geological Society of America Cordilleran Meeting , Hawaii, May, 1997
33. The Effects of Plants on Mineral Weathering. SSSA Meeting Indianapolis, Indiana. November 3-6, 1996.
34. The Use of Stable isotopes of O and H in Monitoring Hydrological Processes in Soils. NCAR Colloquium on Terrestrial Ecosystems and the Atmosphere. Boulder Colorado, July 18, 1996
35. Pedologic and Isotopic Studies of Climate and Vegetation in Pleistocene Palouse Loess, Pacific Northwestern, U.S., Texas A&M Univ. College Station Texas, November 8, 1995.
36. Comparative studies of Pedogenesis and Carbon Cycling across Ecosystems of Biosphere 2. Presented for Symposium Biosphere 2: The Next Frontier, The College of Agricultural Sciences, Texas A&M University, College Station, Texas, Nov 7, 1995.
37. Stable Isotope Composition of Soil Organic Matter and Phytoliths as Paleoenvironmental Indicators. Presented for Symposium on "Stable Isotopes in Soil Environments: Theory and Applications". Seattle, Washington, November 15, 1994
38. Applications of Isotope geochemistry for Climatic reconstruction in Ecosystems: Examples from the North American Great Plains. College of Agriculture and Home Economics Visiting Professor Program, Washington State Univ., March 13, 1992.
39. Isotopically Driven Models in Soil Genesis Research, Workshop for USDA-SCS-NSSC, Lincoln, NE August 13, 1991.

40. The distribution of Stable C and O Isotopes in Materials Derived from Lake Sediments: Methods and Applications. INSTAR Workshop on Techniques for Research within Arctic Systems. Univ. Colorado, Boulder, Colorado, March, 1991.
41. Isotopic Composition of Phytolith, Soil Organic Matter and Carbonates. Workshop on Carbon, Oxygen Isotope Ratios of Soils, Plants and Atmosphere, Harvard University, April 19, 1991.
42. Isotope Ratios of Plant Phytoliths as Indicators of Climatic and Vegetation I Change. Forest Ecosystems Studies Research Group: Workshop on Biotic Indicators of Climatic Change. June 1, 1990, University of Washington, Seattle, Washington 98195.
43. Soils and Global Change Research, Beet Street's Science Café, Fort Collins, Colorado, November 10, 2010
44. The Response of Colorado Ecosystems to Climate Change, Colorado State University Alumni Association, Denver, Colorado, September 27, 2010
45. The use of soils to construct ancient climates American Chemical Society, Colorado Local Section, Sept 24, 2010.
46. Methods of Reconstructing Past Climates, Colloquium on Changing Climate, Colorado State University, September 25, 2007.
47. The Utility of Soil Classification and Surveys in On Site Waste Water Systems, Colorado Environmental Health Association, Breckenridge, CO, September 30, 2004
48. The Effects of Plants on Mineral Weathering. Department of Soil and Crop Sciences, Colorado State University, September 25, 1997
49. Pedology and Biogeochemistry Research on the Island of Hawaii. Department of Soil and Crop Sciences, Colorado State University, April 4, 1996
50. The Use of Soils to Reconstruct Ancient Climates. Sigma Xi, Colorado State University Chapter, September 30, 1994.
51. The Use of Stable Isotope Analysis in Plant and Soil Sciences, Department of Agronomy, Colorado State University, September 5, 1991
52. Soil Science and Its Environmental Applications. Youth in Natural Resources Education Initiative and the College of Agricultural Sciences, July 24, 1991.
53. Use of Plant-Produced Phytoliths in Paleoclimatic Research: Potentials and Pitfalls. Colloquium in the Life Sciences. December 3, 1990, Colorado State University, Fort Collins, Colorado 80523.
54. Why I'm Not A Paleopedologist? Long Term Ecological Research Group. April 18, 1990, Colorado State University, Fort Collins, Colorado 80523

**CONTRACTS AND GRANTS (60 awards: \$186.9M)**

1. NSF-DEB, Workshop Optimizing NEON Science, PI E.F. Kelly, Co PI M. Khulman September 1, 2016-August 30, 2017. \$99,776.
2. NSF-DEB, Visiting Head Scientist, National Ecological Observatory Network, PI E.F. Kelly, August 1, 2015-July 30, 2017. \$667,000.
3. NSF-MREFC, Cooperative Support Agreement for Major Research Equipment and Facilities Construction (MREFC) of the National Ecological Observatory, Lead PI E.F. Kelly, Co-PI Javier Marte. \$91,789,931. October 1, 2015 – June 1, 2016.
4. NSF-MREFC, Cooperative Support Agreement for Major Research Equipment and Facilities for Operations of the National Ecological Observatory, Lead PI E.F. Kelly, Co-PI Kirsten Ruiz. \$55,342,100. October 1, 2015 – June 1, 2016.

5. NSF-DBI, Cooperative Support Agreement for Operations of the National Ecological Observatory, Lead PI E.F. Kelly, Co-PI Kirsten Ruiz. \$110,824,767. October 1, 2015 – August 1, 2016.
6. USDA-AFRI, Biogeochemical Iron Cycling in Subalpine Wetlands with Different Hydraulic Connectivity: Impact on Fate and Transport of Organic C, Lead PI. T. Borch, Co-PI's E.F. Kelly, C. Rhoades October 1, 2013–September 30, 2016 \$499,422.
7. USDA-USFS, The Influence of Pine Beetle Kill on the Physical and Biogeochemical properties of Soils in the Fraser Experimental Forest. April 1, 2014- March 31, 2016. \$85,000. PI E.F. Kelly.
8. DOI, Soil Survey and Resource Inventory of the National Parks, October 1, 2012- March 31, 2013. \$289,000
9. USDA-NRCS, Rapid Carbon Assessment of Agricultural Soils, September 30, 2011 – July, 1, 2012. \$ 24,543
10. NSF- Long Term Ecological Research-of the Shortgrass Steppe. \$1,840,000. November 1, 2010 – April 30, 2014 (Lead PI: J. Moore; Co-PI 's: M. Antolin; J. Derner, N. Kaplan and E.F. Kelly)
11. DOI, Soil Survey and Resource Inventory of the National Parks, October 1, 2009- September 30, 2012. \$1,049,000
12. NSF, Ecosystems Collaborative Research: Assessing the primary controls on biogenic silica in grass dominated ecosystems. August 1, 2008- March 30, 2011. \$398,983 (Additional PI's: A.K. Knapp and O.A. Chadwick).
13. NSF, Critical Zone Observatory, Geosciences: Soil Development and weathering in the Central Great Plains. August 15, 2008 – July 30, 2010. \$20,000.
14. USDA-USFS, The Influence of Pine Beetle Kill on the Physical and Biogeochemical properties of Soils in the Fraser Forest. Apr1, 2008- Mar 31, 2011. \$155,000
15. NSF- Long Term Ecological Research-of the Shortgrass Steppe. \$1,680,000. November 1, 2008 – October 31, 2010 (Lead PI: M. Antolin, Co-PI 's: I.C. Burke; J. Morgan, J. Moore; E.F. Kelly).
16. NSF-Environmental Education and Outreach Program for Educators of Native American Students. \$84,000: 2005-2006. (Co-PI J. Moore, UNC)
17. NSF- Environmental Education and Outreach Program for Educators of Native American Students. \$68,708, June 2004. (Co-PI J. Moore, UNC)
18. NSF. International Collaborations: LTER International Cross-Site Research on Grassland and Savanna Ecosystems in North America and South Africa - \$148,667. June 2004.
19. NSF- Soil Water Dynamics across Environmental Gradients on the Shortgrass Steppe. \$20,000. June 2003.
20. NSF- Rapid Response to Plague Outbreaks to Identify Reservoir Species, II. Data Management, III. Dust Deposition, IV. Outreach and Collaborations. \$142,000. June 2003.
21. USDA-EPA-DOE. Consortium for Agricultural Soil Mitigation of Greenhouse Gases. January 1, 2000- December 2005. \$ 250,000. (PI: K. Paustain, Co-I E.F. Kelly)
22. NSF- Research Experience for Undergraduates, \$20,000. June 2003. (Co-PI's.W.K. Laurenroth, I.C. Burke).
23. NSF- Research Experience for Undergraduates, \$12,000. June 2002. (Co-PI-K. Paustain).
24. NSF - Equipment purchases for LTER shortgrass steppe program, \$25,000. (Co-PI's.W.K. Laurenroth, I.C. Burke, J. Morgan, B.V. VanHorn).

25. NSF. Supplemental Grant - Research Experience for Undergraduates, \$20,000. June 2000. (Co-PI's W.K. Laurenroth, I.C. Burke).
26. Bureau of Land Management. : Utilization of remote Sensing Technologies: California Desert *Predictive Modeling Project*. \$57,370. January 1, 2002- December 31, 2003
27. NSF- LongTerm Ecological Research-of the Shortgrass Steppe. \$4,680,000. November 1, 2002 – October 31, 2008 (Lead PI E.F. Kelly; Co-PI 's: W.K. Laurenroth, I.C. Burke; J. Morgan, J. Moore; M. Antolin).
28. USDA-ARS, Delivery of GIS and Web Based Models of Soil Processes. \$318,000. October 1, 2000 - September 30, 2004. (Co-PI's , M. Schaffer, J. Cipra, B. Flynn)
29. National Park Service, Soils resources in National Parks: Production of SSURGO data for use in the National Park System, \$54,000. June 1, 2000 - May 31, 2001
30. NSF, Aggregate Turnover Controls on Soil Organic Matter: The Influence of Management and Mineralogy, \$ 600,000. January 1, 2000 - December 31, 2002. (Co-PI's K. Paustain, J. Six, E.T. Elliott)
31. Colorado Agricultural Experiment Station, Building Soil Landscape Models for Soil Inventories and Precision Farming. \$ 76,622. July 1, 1999 - June 30, 2001.
32. USDA-NRCS, Soil Survey and Soil Survey Certification. \$ 85,700. October 1, 1997- September 30, 1999.
33. NSF, Proof of Concept Grant, Stable Si Isotope Geochemistry, \$ 49,310. (Co-I, PI's O.A. Chadwick, M.J. DeNiro). October 1, 1998 to September 31, 1999.
34. Faculty Research Grants, Colorado State University, The Utility of Stable Silicon Isotopes in Terrestrial Biogeochemical Research \$4,330. July 1, 1998 - June 30, 1999.
35. USDA, Use of GIS to Determine Nematode Occurrence in Platte River Basin. \$170,00. January 1, 1998- December 31, 2000. (PI's D. Wall, R. Niles)
36. Colorado State University Agricultural Experiment Station. Acquisition of equipment to enhance the use of soils data and geographic information systems. \$16,000.
37. NASA, Partitioning of Ecosystem Respiration and Vectors of Water Loss: An Analysis Using Stable C and O Isotopes. \$66,000. October 1, 1996 - September 30, 1999. (Co-PI E. Sulzman).
38. NSF-LTER, Shortgrass Steppe. \$3,195,850. October 1, 1996 - September 30, 2002. (Lead PI: I.C. Burke; Co-I 's: W.K. Laurenroth, E.F. Kelly, W. Parton; R. Pielke; B. Van Horne).
39. NSF-LTER, The use of Stable Isotopes to Investigate Hydrocarbon-Contaminated Soils and Groundwater. \$297,117. August 1, 1996 - July 31, 1999. (Co-PI's S.R. Poulson, J. Drever, P. Colberg, University of Wyoming).
40. NSF, Coarse Woody Debris and Site Productivity in Rocky Mountain Coniferous Forests. \$396,100. July 1, 1996 - June 30, 1998. (PI's: E.F. Kelly, D.H. Knight, G.F. Vance, L.C. Munn, University of Wyoming).
41. EPA, Pedogenesis and Buffering Capacity of Irrigated Soils of the San Luis Valley \$ 224,878. October 1, 1995-December 31, 2002. (Additional PI: G.C. Cardon).
42. USDA-NRCS, Soil Surveys and Pedologic Investigation of Rocky Mountain National Park, \$19,000. May 1, 1995-September 30, 1996.
43. USDA-NRCS. SSURGO Certification for State of Colorado, October 1, 1994- September 30, 1996. \$91,000. (Additional PI: J.E. Cipra)
44. USDA-SCS, The Contribution of CRP Lands to C Sequestration and CO<sub>2</sub> Mitigation. \$75,000. Aug 1, 1994 – Sept 30, 1995. (Co-I -K. Paustian, E.T. Elliott)

45. USDA-USFS, Carbon Isotope Determinations for Paleoclimatic Research in the Rio Puerco Watershed. \$3,500. September 1, 1994 - March 31, 1995. (Additional PI's: S. Lofton)
46. NSF, Acquisition of an Isotope Facility to Study Atmosphere Ecosystem Interactions. \$380,575. October 1, 1994. (Additional's PI.: D.S. Schimel, J.Welker, D. Valintine)
47. Colorado State University Agricultural Experiment Station. Soil Resource Information Center to Support Interdisciplinary Research at Colorado State University. \$29,000. (Additional PI's: I.C. Burks, E.T. Elliott).
48. USFS, Paleosols and Geomorphic Analyses of the Hudson-Meng Bonebed. \$11,925. July 1, 1993 - December 15, 1993. (Additional PI: E.E. Wohl)
49. NSF, Division of Earth Sciences, "The Geologic and Pedologic Record of Climate and Vegetation in Pleistocene Palouse Loess, Pacific Northwestern U.S., July 1, 1993 - June 30, 1996. \$372,000. (Additional PI: A.J. Busacca)
50. NSF, Division of Earth Sciences, The Relationship of Climate to the Stable Isotopic Composition of Hackberry (Celtis) Endocarps. \$126,686. July 1, 1993 - June 30, 1995. (Additional PI's: R.G. Amundson, L Tiezen, M. Gabel).
51. NSF, Acquisition of a powder X-ray Diffractometer. \$75,000. August 1993. (Additional PI: S. Sutton).
52. NASA-JPL, The Influence of Climate on the Stable Oxygen Isotope Composition of Pedogenic Clays in Tropical Soils. \$15,000/yr. January 1, 1992 - September 30, 1995.
53. NSF-LTER, Shortgrass Steppe. \$3,195,850. January 1, 1991 - September 30, 1996. (Investigator: Co-PI's: W.K. Laurenroth, I.C. Burke).
54. USDA-SCS-ARS, The Soil Survey and Pedologic/Geomorphic studies of the Central Plains Experimental Range. \$20,000. October 1, 1992 – Sept 30, 1993.
55. Colorado State University Experiment Station, "The Influence of Climate on the Isotopic Composition of SOM." \$4,000. July, 1, 1989 - June 30, 1993.
56. NASA-JPL, A Chronosequential and Paleoclimatic Study of Soils in the Western Wind River Basin, Wyoming. \$9,500. October 1, 1989 - September 30, 1991. (Additional PI: O.A. Chadwick)
57. Faculty Research Grants, Colorado State University, "The Paleoecology of the Central Plains Experimental Range," Colorado. \$4,007. October 15, 1990 - December 1991.
58. USGS, A Chronosequential Evaluation of Carbon Fixation in Great Plains Soils. \$3,000. October 1, 1991 September 30, 1992.
59. Chancellor's Patent Fund, University of California-Berkeley, A Study of the Influence of Climate and Vegetation on the Stable Isotope Chemistry of Soils in Grassland Ecosystems of the Great Plains. \$1,630. Sept 1987 - June 30, 1988.
60. NSF, Doctoral Dissertation Improvement Program, A Study of the Relationship of Climate and Vegetation to the Stable Isotope Chemistry of Soils in Grassland Ecosystems of the Great Plains. \$9,612. October 15, 1988 - April 30, 1990. (Advisor: R.G. Amundson).

## **OUTREACH AND PROFESSIONAL SERVICE ACTIVITIES**

### **Editorships**

Geoderma – Associate Editor	1993-2013
Biogeochemistry - Associate Editor	2009- 2012

### **Outreach and Extension Activities**

Managing the Planet Series, Host Public Forum and Panel Discussion on Current Topics in Sustainability, Fort Collins, CO, April 2010 - Present  
Exploring Soils, Logan School of Denver, October 15, 2010  
Colorado Final Acre Ceremony, USDA-NCSS. September, 28, 2010.  
CSU Accelerates, Climate Change and Environmental Sustainability, New York, New York, March 26, 2008  
Teachers on the Prairie, 2006-2008  
Boys Math Club, Boulder Valley School District, 2000-2007  
Schoolyard LTER , 2002-2010  
Show Case Colorado State, 1994, 1999  
Earth day Display, Fort Collins Environmental learning center, 1993  
USDA-NRCS Field Reviews, 1989- Present  
Superintendent State FFA Contest, 1990-2010

### **National Panels, Review and Committees**

NRCS-NIFA-AES-CES Partnership on Soil Health, Washington, D.C. 2017  
NASA-DOE-USDA, Carbon Cycle Science, Washington, D.C. 2013, 2015  
USDA- Soil Processes, Washington, D.C., 2004-2006, 2010-2012  
NASA-DOE-USDA, Carbon Cycle Science, Washington, D.C. 2004  
ASA-SSSA-NSF, Biogeosciences Critical Zone Observatory, Madison, WI, 1999  
National Science Foundation, Geological Sciences, Washington, D.C., 1998-02  
National Science Foundation, Biological Sciences, Washington, D.C., 1999-01

### **University Committees**

Creating an Agrotropolis at DIA, Chair, 2014-2015  
Task Force Creating CSU Water Center, Chair, 2012-2013  
President's Carbon Advisory Group, 2010-2012  
SPARC Research subcommittee, 2008-present  
Task force for the School of the Environment, 2007-2008  
University Review Committee, Geosciences, 2008  
President's Development Activities-Climate Change and Sustainability, 2008  
Committee on Sustainability, 2007-present  
Faculty Council Executive Committee, 2000-2001  
Faculty Council, 1999-2002  
Benefits Committee, 1999-2002  
New Federal Initiative in Agriculture, 1994-1995  
Faculty Council Graduate Council, 1994-1995  
University Plant Ecosystem Task Force, 1993-1994  
Colorado State Activities Board, 1993-1994  
Strategic Plan Working Group - Plant Ecosystem Studies, 1993

### **College of Agricultural Sciences Committees**

Strategic Initiatives for Agriculture – Land Use, Water, 2010-present  
College Code Committee, 1999-2001  
Graduate Summer Discovery Internship Program, 1994  
Assisted at Able Table for Spring Semester 1991  
Recruitment of Minority students by CSU, Pingree Park Retreat. 1989-1992  
Soil Science and Its Environmental Applications.  
The Youth in Natural Resources Education, 1992  
Initiative and the College of Agricultural Sciences, July 24, 1991.

## **Department of Soil and Crop Sciences Committees**

Soil Ecology Concentration, 2010  
Search Committee Chair, Environmental Physics, 2008  
Search Committee Chair, Soil Chemistry, 2005  
Search Committee - Department Head, 2003  
Search Committee - Soil Microbiology, 2000  
Search Committee - Soil Chemistry, 1996  
Search Committee - Soil Irrigation, 1992  
Graduate Studies Committee, 1993-1995  
Resident Instruction Panel 1989-1992, 1998-2001  
Chair, Soil Judging Contests Committee, 1989

## **Professional Service**

Soil Science Society of America- Fellow Committee, 2013-2016  
Soil Science Society of America- S5 Division Past Chair, 2010 Soil Science Society of America- S5 Division Chair, 2009  
Soil Science Society of America- S5 Division Chair Elect, 2008  
Soils and Geomorphology Committee (S880) SSSA, 2003  
Soils and Geomorphology Tour, ASA, Denver, CO. October, 2003.  
Farming Systems Tour, ASA, Denver, CO. October, 2003.  
Soils and Geomorphology Tour, ASA, Denver, CO. October, 1991.  
Farming Systems Tour, ASA, Denver, CO. October, 1991.  
Soils of the Rocky Mountains", SSSA, Denver, CO. October, 1991.  
Agronomy Field Days, Fort Collins, CO July, 1991  
Field tour for International LTER Research Group, May 18, 1991  
Field tour for NSSC Geomorphology and soils staff, May 5, 1990

## **Expert Witness\* and Consulting Activities**

Jefferson County CO, Public Defenders, Expert Witness, March 17, 2014\*  
Consultant, Barkan & Robon Ltd., Maumee, Ohio June 2013,  
Prime Farm Lands Designations, Grand Junction Colorado, 2012  
Forensics, Denver Police Department, Missing Persons Unit, 2011  
Forensics, Weld County District Attorney's Office, July 28, 2010\*  
Greeley Police Department, Soil Analysis, May 2010\*  
Soil Scientist, Mineralogical Analyses, ISSI consultants, January 2000\*  
Soil Scientist, Landscape assessment of south Platte River watershed, Foster-Wheeler Environmental Corp, November 1999.\*  
Soil Scientist, Design of soils data base for "Garden Windows Web page for Fertile Ground Company, LTD,. November, 1998  
Soil Scientist, Soil Survey of Prime Farmland Markel and Company, 1995.\*  
Forensics Project, Soil Analyses for Robert Cook, Attorney at Law, 1994.\*  
Soil Scientists, Wetlands Delineation for Riverside Technology Inc.,. 1993  
Crested Butte Bank Explosion Case, Watson, Ess, Marshall & Engass, Kansas City, MO. October, 1991. \*  
Forensics Project for State Patrol, Spokane, Washington November 1991. \*  
Soil Scientist, Erosion Evaluation and Field Review for USFS at the Rio Puerco Watershed Northern New Mexico. 1990  
Soil Scientist, Soil Mapping of coastal areas for wetlands, Philip William & Associates, San Francisco, CA. 1989.  
Soil Scientist, Interpretation of soils along the Hayward fault, California Division of Mines, 1985, 1987
